PROJECTS:

SHOPING SYSTEM:

The user will shop for clothes and we give discount And we deduct GST according to the item.
<https://github.com/mustved12-jpg/8-dec-2025-se/blob/main/ALL%20%20Assessment/Python/project%201.py>

DISCOUNT:

We have to give discount to the user according to quantity and according to price. If he is our member then after adding extra discount and GST, we should show the total price or discount.
<https://github.com/mustved12-jpg/8-dec-2025-se/blob/main/ALL%20%20Assessment/Python/project.2.py>

GUESS THE NUMBER:(GAME)

In this we have to guess the number from 1 to 100. We have 7 chances. If we are not able to guess in the first 3 chances then we get a hint. And if we guess correctly, we win, otherwise we lose.

BANK MANAGMENT SYSTEM:

User can create an account and log in. After logging in, they can perform further activities such as depositing and withdrawing money.

<https://github.com/mustved12-jpg/8-dec-2025-se/blob/main/ALL%20Assigments/Python/Bank>

IPL:(GAME)

This is a super over game of 2 overs, in this first we have to choose the team, then there is a toss, if we win the toss then we get the option of bat and ball. If we choose the ball, the opponent bats first. If we score more runs than the opponent, we win.
